## Roumania's King Better, Capital Told

### BULLETIN.

BUCHAREST, Roumania, April 1.—(P)—An official bulletin issued by Prof. Danileopol tonight read: "His majesty's condition is slightly improved. Temperature, 37.4 centigrade (99.32 Fahrenheit); respiration, 20; pulse, 100."

### BY LARRY RUE.

(Chicago Tribune Press Service.)

(Picture on back page.)

VIENNA, Austria, April 1.—While the Roumanian legations here and at Belgrade and Budapest all announced tonight that the condition of King Ferdinand has not altered, Timo Tihuna learns that the state of the Roumanian monarch has been critical since yesterday noon. Weakened by cancer, the king's constitution is believed to be too weak to withstand the inflamed condition of his lungs as a result of the influenza. The crisis will occur tonight.

That his death is believed imminent is indicated by the conference at Bucharest today between the chief of police and heads of the army to make measures to preserve order if the monarch dies. The country itself, it is said, is in a panic.

### Wild Rumors Fly.

Telephonic and telegraphic communications with Bucharest still are interrupted. This fact gives rise to sensational rumors here. It is said that in the event of the king's death Prince Carol's supporters are ready to start trouble to make the former crown prince king.

The government, however, seems to have the situation well in hand and it is regarded as almost certain that the queen will be appointed regent, despite the law, which creates a board of three regents.

King Ferdinand's daughter, Queen Marie of Yugoslavia, left Belgrade at 11 o'clock last night on a special train for Bucharest.

CHIEF, 13, FLEES  
BANDITS; STARTS KIDNAP SCARE

### SEARCHES ARE ORDERED.

"When you see a suspicious car, crowd it to the curb, keep your guns ready, search the occupants, and, if they are carrying weapons, arrest them. They can't vote with a gun. But they can steal ballot boxes, terrorize voters, and kidnap workers. That's what we are going to stop."

Chief of Detectives Schomaker, Deputy Chief Stagg, Deputy Chief Zimmer, Judge Jarocki, and Charles V. McGuire, chairman of the election board, also addressed the squad leaders. They urged the officers to forget their partnership and to be "hard boiled" in handling cases where violence threatens.

### MACHINE GUN PAIRED.

Thirty-five machine guns, each with 20 clips and 50 drums of ammunition, will be distributed to the squads when they receive their final orders Monday night.

Each squad is a unit of ten men. They are to be armed with a gun, a pistol, and a diamond ring, caused the chief to give his orders to his leaders in a personal exhortation.

"Get them before they get somebody else," the chief warned. "Round them up and bring them in as fast as you can find them. This election is going to be bitterly fought, and I intend to see that it is peaceful and orderly."

Machine Gun Paired.

Special forces are to be detailed to "trap spots," the chief said, especially the 2d and 3d Black belt wards, the 11th, 13th, 15th, 16th, and the notorious 20th, 27th, 42d, and 43d. In the latter ward trouble is expected due to the hot Albert-Hoffmann aldermanic battle

charge Mr. Thompson with acts calculated to incite a riot in the Sherman. Mr. Carlstrom said he had traced to Dever headquarters inflammatory circulars intended to arouse hatred and riot and that he would present these matters to the grand jury next week.

An episode which Democratic leaders in general chortled at as an April fool's day practical joke has developed. A forged letter bearing a printed false signature of William Hale Thompson was sent out to some 10,000 Negro citizens. It said:

"Dear Friends—Will you arrange to meet me personally at my headquarters, Hotel Sherman, Friday, April 1, between the hours of 12 and 1 p.m.? I know you will not disappoint me. Very sincerely yours, William Hale Thompson." A forged badge to be worn was included.

#### Colored Leaders Headed Off.

Thompson headquarters heard of the hoax in time to expose it to most recipients of the letter. Negro leaders were invited to their quarters blocks away from the hotel to head off others as they alighted from street cars.

"Go back home," they shouted. "It's a Democratic April fool joke."

A large crowd got as far as the Hotel Sherman, but were dispersed by colored leaders, among them Bishop Archibald Carey, before getting inside.

At once the fur began to fly. Mr. Thompson sent out a declaration that the letter was a forgery. "It's purpose," he said, "is to flood the loop with Negroes wearing Thompson badges to create race hatred."

Then Sheriff Graydon's letter to the governor was prepared and dispatched after a long conference with Mr. Thompson and others.

#### Promises Grand Jury Quiz.

Attorney General Carlstrom's message to the governor said:

"We have traced printing and distribution of these circulars to the printer, who is connected with the printed matter to Dever headquarters, is direct and clear violation of the law, all of which printed matter is of the most vicious and inflammatory character, calculated to incite hatred, venom and riot. I shall present them and all matters affecting every person guilty thereof to the next regular April grand jury, and vigorously prosecute them in conjunction with the state's attorney."

Bill last night turned his attention to his old campaign friends, Fred Lundin and Dr. John Dill Robertson. In answer to a wire from the doctor asking whom Thompson, if elected, will appoint as chief of police, he said he would pick some one who would drive the crooks out in ninety days. At the end of a long telegram, Bill said:

"Doc, you're through. And so is Foye Fred. You have made a goat out of Fred's fox. Take a tip from Bill Thompson and before you offer yourself for office shave your goats off."

#### And Another Thing.

The telegram discussed other things. "I know," he said, "that you are the doctor. That's why Lundin is an atheist. When he raises his hands to God and takes the oath it's meaningless. He couldn't make his pledge to God mentally because he thinks there is no God and that probably is the reason he is for you."

"I have made the statement that when elected mayor I have no boss. Lundin is your boss and you are welcome to him. You spent four hours trying to prove to me that he was a crook. Thirty days after, you became

## NOTES OF THE CAMPAIGN

Indoring among other things his "absolute impartiality, honest dealing and splendidly American attitude" toward the schools, eight well known Protestant ministers have signed an open letter supporting Mayor Dever. They are Charles W. Gilkey, John Timothy Stone, William H. Boddy, Charles Clayton Morrison, Albert John McCarter, L. Ward Brigham, Preston Miller, and Fred Mierman.

Alfred Granger, architect, says in Thompson's "four best years" building permits totalled \$145,391,000, while the average under Dever has been \$335,489,000.

Peter Shanahan, president of the Blacklives and Stone Masons' Union, issued a denial yesterday that he is involved in the Washington Construction company business, as recently charged by John Gorye.

The executive board of the World's War Veterans announces it has inducted John Dill Robertson.

The Bohemian-American Dever club charges that an anti-Dever letter signed "A. Cermak" is a fraudulent effort to create an impression that A. Cermak, president of the county board, is opposed to Dever.

Miss Mary McEnearney, secretary of

his candidate for mayor. I then knew you were right about Lundin being a crook.

"Mayor Dever's boss is the biggest crook in politics. Mayor Dever admits he makes no move without consulting his boss. I have publicly stated that I am through with bosses. Some of that I am having little trouble in harmonizing the Republicans."

"In harmonizing the party I have done so without a pledge or a pledge or a promise and the great Republican leaders are joining hands under a new harmony banner, satisfied to permit Thompson's conscience to be his guide to be as fair as possible after all is over. I do not have to re-pledge people to pledging important jobs to any one."

Bill asked a few questions of the doctor.

"If there were any honor in your unbroken hide," he said, "why do you retain Republican power as president of the west park board while as an independent candidate for mayor you use all that power to destroy the Republican nominees? And where did you get the \$400,000 to cover your campaign expenses?"

Frede to Harmony Fest.

William Lorimer, Roy O. West, and Edward J. Brundage spoke for Thompson from the same platform last night at Austin Masonic temple, a curtain raiser for the harmony fest tonight at Medinah temple.

"Even Thompson's worst enemies," said Mr. Brundage, former attorney general, "admit that Chicago under him made tremendous strides. He has two great ambitions, to harmonize the Republican party and to build subways."

"If you play the game, abide by the rules," said Mr. West, secretary of the Republican national committee. "As a Republican, I'm for the Republican ticket."

Mr. Lorimer, the former "blonde boy," whose election as senator was found invalid by the United States senate in 1912, spoke for nearly two hours, mainly on the waterway.

## MINISTERS BACK MCCEELEY; CALL CHARGES FALSE

The Bindery Women's Union urged all residents yesterday to support Thompson's efforts to remove him from their windows. She charged that some of them do not bear the label of the printing trades.

**WACKER WRITES PLEA FOR BOND ISSUES APPROVAL**

"One for all and all for one"—the

rally cry of the three musketeers

was urged by Charles H. Wacker yester-

day as the slogan of Chicago voters

as they mark "Yes" on the bond issue

proposals to be submitted at Tuesday's

election.

"No petty bickerings or jealousies

should be allowed to arise," declared

the former Chicago Plan commission

chairman in a special letter to the vol-

unteers. "Every section, north, south,

and west, has been fairly treated in the

division of the improvements recom-

mended and every section is equally

interested in making Chicago better."

"To stop the forward march of our

much needed improvements now would

mean a step backward which Chicago

must not suffer; in fact, cannot suffer

if it hopes to maintain its commercial

supremacy. Every previous improve-

ment has more than paid for itself,

and I urge you to vote 'yes' on all

the issues I firmly believe they will be

for the best interests of every man,

woman, and child in the city."

## U. S. REFUSES TO LET LEAGUE CUT CIVIL AIR FORCE

Agree at Geneva on Army  
Limitation Basis.

(Chicago Tribune Press Service) Copyright: 1927 by The Chicago Tribune  
GENEVA, Switzerland, April 1.—The United States will not tolerate limitation by the league of nations of its civilian aircraft or the number of its citizens qualified in civil aviation. It considers the only reduction or limitation possible is in military air services having personnel either serving actively or legally liable to mobilization.

Lugard Gibson, the American representative, categorically informed the preparatory disarmament commission of the United States' position today when the debate on aerial limitation was taken up.

The French are raising the old thesis that aerial limitation should be governed first by horse power and second by personnel.

The basis of limitation of military establishments finally agreed upon consists of fixing the maximum number of effective allowed each country and limitation of the period of training in conscript countries. However, the of-

### SAY LEAGUE HAS FAILED

GENEVA, April 1.—[Copyright: 1927 by United Press]—The league of nations has failed in its years of post-war efforts toward disarmament. That fact was impossible to deny.

The nations of the world now understand their resources to bear the tremendous burden of armed preparedness on a scale that is costing about \$3,000,000,000 annually.

Europe and the world generally must continue to stagger under the present armaments load with only two

years strength is not touched and the number which can be called for training is not fixed, provided it does not exceed the total number of forces allowed each country.

That was the way American spokesman frankly outlined the situation today after the first ten days' session of the League's first preparatory disarmament conference here.

The fault, they explained, was not with the league but was that of the nations who refuse to disarm. With the adoption by the commission of the first article of the proposed universal disarmament convention, all hope of any reduction in Europe's present standing armies was dispelled.

### Divorce Hearing on Rum Issue Draws Dry Agents

Two prohibition agents yesterday attended divorce court to hear Dr. George E. Moore, tooth paste manufacturer, clear himself of a charge made by his wife, Mrs. Irene Moore, 2615 Alton street, that he was retailing alcohol. Circuit Judge George Fred Rush dismissed Dr. Moore's cross-bill charging desertion, saying that the husband, from the evidence, was willing for Mrs. Moore to leave. He also dismissed her bill, alleging cruelty, as lacking equity.

## DEVER GAINS ON THOMPSON BY SOUTH SIDE POLL

Street Corner Tests Tell That Story.

PRE-ELECTION POLL.		
	Per cent.	Total
Dever	45.81	2,899
Thompson	51.951	3,688
Robertson	4.449	311
Totals	100.002	6,188 196,092 99.99

BY OSCAR HEWITT.  
Major Dever's stock on the south side has gone up sharply. The straws presented today are highly encouraging from a Democratic viewpoint. These were gathered from south side street corners, a sample from each ward, and the totals are reasonably typical of the whole south side, and are believed to indicate sentiment in that section yesterday and the day before.

Briefly, the 6,188 straws in this poll show that Hale Thompson will run like wild fire in the colored sections, if he has been conceded repeatedly. He also has points of advantage in other south side areas, but taking the south side white territory as a whole Mayor Dever is the leader in this poll.

Some Points of Comparison.  
Starting the explanation with the poll as a whole, here are the summing figures:

Candidate	Straws	Per cent.
Dever [Dem.]	3,800	46.77
Thompson [Rep.]	3,862	49.72
Robertson [Ind.]	217	2.51
Totals	8,879	100.00

These figures are much more unfavorable to Thompson than the straws collected when the Tribune first started its election canvass.

The First ward is Democratic and will give Dever a heavy plurality. A considerable part of the voting population of the Fourth ward is white, whose opinions on the race question are more acute than probably among any other Chicago group. Arbitrarily, however, taking the first four wards because a large part of their combined population is colored and segregating them from others with other wards, two interesting pictures are presented:

The poll of wards First to Fourth, both inclusive, give the following composite results:

Candidate	Straws	Per cent.
Dever [Dem.]	499	57.74
Thompson [Rep.]	1,943	70.10
Robertson [Ind.]	28	3.14
Totals	1,773	100.00

Contrast these figures with a summary of the straws collected in the

## DELAYS PETITION FOR SPECIAL BAILIFF IN ELECTION JURY QUIZ

Other South Side Data.

There is considerable significance in these straws, if they are representative of the south side sentiment on the mayoralty candidates. In the election last fall Harding [Rep.] and O'Brien [Dem.] ran a close race in Chicago. Harding's total vote was 343,694 and O'Brien's 352,640. In that contest for county treasurer there were 283,016 votes cast on the south side, of which Harding received 147,741 and O'Brien 125,776.

In that contest the total city vote was 696,334, while it is expected that next Tuesday there will be in the neighborhood of 900,000. For doping purposes, assume then that 900,000 votes cast next Tuesday; then the south side's normal share of them will be 369,000. If Mayor Dever gets—as today's poll figures indicate—46.77 percent then the share of the 369,000 would be 172,831. Mr. Thompson's 49.72 per cent in the poll would credit him with 183,466 votes. The margin between them is only 10,835.

Thompson sentiment on the south side has decreased and Dever sentiment has increased.

Mr. TRAISUNE, during this campaign before the figures presented today, has taken samples of south side sentiment on 12 different occasions, aside from the church and factory canvasses. Comparing today's figures with previous polls, indicates a growth in Dever's favor. Such a comparison of polls, with the date when each was taken, follows:

## COMMANDER OF CANTONESE ARMY ATTACKS MOSCOW

**Chiang Denounces Red Intriguers' Dictation.**

BY CHARLES DAILEY.

[Chicago Tribune Press Service.]

[Copyright: 1927. By The Chicago Tribune.]

PEKING, April 1.—The war on bolshevism in the ranks of the Kuomintang (People's party), which has set up the Nationalist government in Hankow, is now being led personally by Gen. Chiang Kai-Shek, the intrepid Chinese commander who has brought the Cantonese army all the way to the Yunnan border and driven to the key positions of Shanghai. Gen. Chiang has had no sympathy with bolshevism from the start. But when the control of the government passed from the hands of the committee of the party into a group of three radicals dominated by Moscow he refused to be a party to the Red movement.

The rift in the party founded by Sun Yat-Sen began in February and widened greatly in early March, so much so that the whole plan of camouflaging the split and the northern militarists who had been left in command of troops to the Yangtze valley to try to stem the Red tide found their own somewhat loosely allied associates drifting over to the nationalist movement. Chang Tso-lin, the autocratic leader of the封建 forces, began to take stock and to get a new outlook.

Although the British has large forces ashore at Shanghai and many more at Hongkong and the Americans, French, Japanese, and Italians had bluejackets and marines to the extent of several thousand aboard

ships off the Shanghai Bund, Chang Tso-lin changed his viewpoint in two directions. First he entertained a much higher respect for the able field leader of the national revolutionaries and began to court the foreign powers. He made a round of all the legations of Peking for a series of dinners, the two most notable of which were at the British and American legations, the latter occasion being on the evening of March 18.

Chiang Kai-Shek turned the whole tide of affairs by his bold and challenging speeches at Nanchang on the time of the convention of the Kuangtung and the provincial capital. While he paid a whole-hearted tribute to Chang Tso-lin and his armies he openly attacked the Communist Chinese Minister Hua Chen and the other Bolshevik members of the government at Hankow. Translations of this speech are now available—they throw a great light on the sudden change of affairs in the early Lenten season.

Speech by Chiang.

"At present there is a strong agitation on the part of the Kuomintang," Gen. Chiang said, "for the concentration and consolidation at the Wuhan (Wuchang and Hankow) of the authority of the party. The real motive of those behind the agitation appears to be to curb the authority of others with whom they do not agree.

As president of the central executive committee, the political committee and the ordinary business committee I tried to none in support of the authority of the party. But they have complained repeatedly that the power of the central executive committee is too excessive to be resisted.

"I submit that the central executive is the highest political organ of the Kuomintang, and that if there is any power and authority it is the joint committee at Hankow. But the committee has no legal basis and if my opponent are really solicitous for the authority of the party, let them scrap the Hankow committee first, otherwise I fear both the Kuomintang and the nationalist government will disappear."

Let me explain: The Hankow committee tries to dictate to the Kuomintang and the nationalist government. The government has considered its discretion, yet it does the order and continues to call sessions. This is the way they treat the discipline of the party!

Who Is the Dictator.

"Again, I have been attacked as trying to be a dictator. Nothing could be farther from the truth. So far as I am concerned, I obey nothing but the orders of the central executive committee and the nationalist government. If any one in the Kuomintang seeks to be a dictator it is Hua Chen. Without any legal justification Hua Chen can still claim the right of command committee at Hankow. Moreover he regards himself above the party and the government. Is not this dictatorship?" As regards myself, I always abide by the decisions of the central executive committee."

Frauds Chang's Army.

Generalissimo Chiang made another speech at the Nanchang convention, in which he paid high tribute to the character of the northern forces which have been sent against him. "We should not look down upon the Mukden army," he said. "It is far better equalize with our revolutionary army in fact, it can stand comparison with the best military unit in the Far East."

Gen. Chiang said the army of Chang Tso-lin consists of 350,000 men. Allied with it is the army of Chang Tsung-Chang, governor of Shantung, totaling 200,000 men.

Against these Gen. Chiang said, excluding the 150,000 Kuominchou of the Christian marshal Feng Yu-Hsiang, he had a total of 350,000 men. Of these, however, 150,000 are in Szechuan and Yunnan provinces, leaving 200,000 in the provinces of Kwangtung, Kwangsi, Hunan, Hupeh, Kiangsi, and Fukien, but only 50 per cent

of these at best can be concentrated.

## REVOLT WITHIN REVOLT PERILS CHINA'S VICTORS

ed by published criticism among Americans at Shanghai, including certain officials of the municipal council, which governs the international city, charging lack of firmness in Washington in dealing with the crisis and failure to

cooperate with other western powers. "American commercial and military representatives in China are cooperating fully with other foreign representatives when faced with a joint problem such as protection of the lives and property of their nationals," Mr. Kellogg said.

The same resentment of misconstructions placed on official announcements in Washington as they are circulated in Shanghai was disclosed at the White House. It was indicated that in the future the views of President Coolidge in connection with day to day developments in China, might not be made available as freely as before.

### NO ULTIMATUM SENT

BY CHARLES DAILEY.

[Chicago Tribune Press Service.]

LONDON, April 1.—While Downing street is waiting for a reply from Washington and Tokio on the request for joint action on the demand for an apology, indemnity, and punishment of the guilty for the Nanking outrage, the committee on imperial defense is working overtime on the problem of coercing China should this step become necessary. It is understood that the plan en-

visages the use almost exclusively of the naval air force and does not contemplate any attempt to seize or hold territory. So far the cabinet is proceeding on the assumption of joint action by the powers and has not yet considered a course in case the powers refuse to cooperate.

## MINE OPERATORS TO HOLD STRIKE PARLEY APRIL 11

Illinois Owners to Meet  
in St. Louis.

Illinois coal operators will meet in St. Louis on April 11 to discuss the general strike of coal diggers in the bituminous fields of western Pennsylvania, Ohio, Indiana, Illinois and in several outlying states. Rice Miller, president of the Illinois Coal Operators' association, announced last night.

Mr. Miller said the St. Louis conference will be one of those get-together affairs to enable mine owners of the state to secure accurate strike information. He asserted that all operators agree that the Pittsburgh district is the most important center in the present situation. There are 100 mines in the Pittsburgh Coal company, one of the largest in the country, rejudged terms of the Jacksonville agreement and has been operating a large percentage of its mines with non-union miners. Surrounding this company's property, said Mr. Miller, is urging patience until the most pressing matters are out of the way.

agreement be accepted unless it calls for wages at least equal to the Jacksonville rate of \$7.50 a day.

Advices from Indiana mining centers indicate a complete shutdown of shipping mines. Some wagon mines will resume operations next week, it was announced. Iowa miners are idle in the big fields, although a few independent mines are reported operating. Montana and North Dakota mines are operating under terms of the Jacksonville agreement, which expired March 31 at midnight.

### POSSE HUNTS AX SLAYER, BUT HE MAY BE SUICIDE

Niles, Mich., April 1.—[Special.]—A posse is engaged in a country-wide search tonight for a murder suspect without being assured that the bones of the man they seek are not those found in the ruins of the farmhouse where the murder was committed early this morning.

The victim of the slaying was Michael Zerbe, 37 year old farmer. His wife, aged 28, is also at the point of death from a similar attack—both made with an ax. The intruder entered the home before daylight and first attacked Mrs. Zerbe, but struck her only a glancing blow, stunning her. He then attacked the sleeping husband, who was awakened even by the struggle, which the injured wife attempted before she became unconscious. The husband's head was crushed.

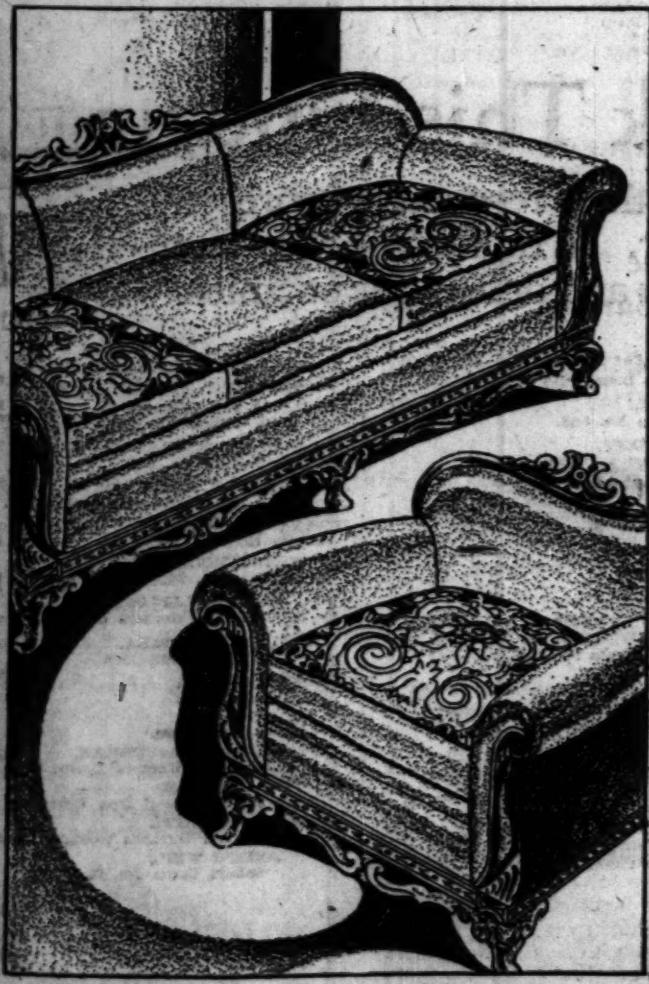

The murderer then set fire to the house, but the wife had partially recovered and was able to crawl to the kitchen, where neighbors, seeing the fire, rescued her and her body of the husband.

## Board of Trade's Verdict on Armour Grain Co. Attacked

Methods of the Chicago Board of Trade in its investigation of the "rye scandal of 1926," involving the Armour Grain company, were under attack before the legislative committee yesterday.

As in the investigation of charges against the Armour Grain company in its relations with the Grain Marketing corporation, the farmers' coop, the Board of Trade was accused by the counsel for the legislative committee of showing a tendency to deal too leniently with the accused company.

In the case of the rye scandal, the counsel for the legislative committee declared the Board of Trade inquiry was "little more than a gesture. The time of the legislature was devoted to the reading yesterday of a transcript supplied by the Board of Trade.

Counsel Censures Board.

Attorney Benjamin F. Goldstein, as counsel, did the reading, commenting afterwards.

This record shows that the Board of Trade's investigation was little more than a gesture," he said. "If it had made as sincere an investigation as we are making, it would not have condoned the offense."

The record shows that the Board of Trade's investigation was little more than a gesture," he said. "If it had made as sincere an investigation as we are making, it would not have condoned the offense."

"This is conclusive proof in itself that screenings were transferred into the public elevator" and the agreement with the board was violated.

Then another special investigating board was appointed, with Mr. Goldstein as chairman. This committee reported that the transfer was a violation, but it excused officials of the Armour Grain company.

That report was accepted, but it was decided to have the business conduct committee investigate. This committee reported:

"The committee charges that both the Export Elevator company and the Armour Grain company were guilty of dishonorable conduct within the meaning of rule 142. Furthermore, the committee is of the opinion that the executive officers of the Export Elevator company who are members of the Board of Trade are responsible for such dishonorable conduct."

Finally Wins Exoneration.

The jurisdiction of this committee was limited by the Armour Grain company so its individual members filed charges with the directors of the Board of Trade. This final investigation resulted in the exoneration of the Armour Grain company.

The hearing was continued until next Friday.

INJURIES FATAL TO SWITCHMAN.

Harry E. Johnson, 30 years old, #461 North California avenue, a switchman, died yesterday from injuries received when he fell between two freight cars.

The transfer was made during the temporary absence of a Board of Trade sampler, who under the law and the rules of the Board of Trade should have been present. He said he wasn't because Grotevant told him there would be no shipment that morning.

Another Board of Trade employee made a report of the sale of screenings as good rye. The grain committee of

## What Wonders the Architects of To-day Achieve with Them!

ANY type of architecture, be it English, Spanish, Italian, or American Colonial, is done with finest results by modern uses of common brick.

COMMON BRICK homes are today's prize examples of fine architecture.

BRICK UPON BRICK the best homes are built . . . solid, indestructible walls that laugh off attacks of time, fire, storm, flood . . . walls that mellow and enhance in charm as the years and the decades roll on!

See the facade of the attractive home above illustrated at our exhibit at the OWN YOUR HOME EXHIBITION, which opens today at the Coliseum.

**AL SMITH VETOES  
BILL FOR INQUIRY  
OF WATER POWER**

Governor Had Favored a  
State Referendum.

Albany, N. Y., April 1.—(Special)—  
Gov. Al Smith's expected veto of the  
Republican legislators' bill for the cre-  
ation of a commission to investigate  
the relative merits of state and private  
development of water power rights  
came today.

In a terse message, the governor  
called attention to his water power  
views, repeatedly stated, and an-  
nounced that he had vetoed the Re-  
publican measure "as it would waste  
the public funds and accomplish no  
good purpose."

What Bill Provided.

The bill provided for a commission  
of five to conduct an inquiry and make  
recommendations to the legislature as  
to whether the state should develop  
and control hydro-electric power or  
whether private capital should be  
granted leases.

The governor preferred a Demo-  
cratic measure which would have put  
the question to a referendum vote and,  
if state legislation were approved,  
would have recommended to the legislature  
to proceed with the project.

Governor's Smith's plan also called  
for the establishment of a water power  
authority comparable to the New York  
port authority. His entire scheme has  
been attacked as socialistic and hazard-  
ous. It has been asserted that the  
governor's plan does not give due con-  
sideration to the rights of other great  
lakes states and assumes to give New  
York state monopolistic control over  
St. Lawrence river water rights to the  
exclusion of other states.

Federal Government Ignored.

The federal government of Canada,  
Montreal, ignored the Smith plan,  
it is alleged, whereas the Republicans,  
sought to have the entire subject re-  
viewed by competent judges before the  
legislature adopted a definite policy.

The governor is committed absolutely  
to state development, while the Re-  
publicans stand out for private capital.  
The issue is being capitalized by  
Gov. Smith for political purposes,  
it is charged, and is expected to figure  
in the next Presidential campaign if  
Smith should win the Democratic nom-  
ination.

Unbiased experts continue to attack  
Smith's scheme as the greatest water  
power grab ever attempted.

**TWO CHILDREN,  
ALONE IN HOUSE,  
OUTWIT BANDIT**

(Picture on back page.)

A masked bandit, believed by Rogers  
Park police to have been the "cat  
bandit," was outwitted by Marjorie and  
Marian Isbell, 7 and 9 years old, res-  
pectively, after he had successfully  
entered the bedroom of their home, 1338  
Norwood street, early Thursday  
night.

The mother of the children was vis-  
iting a neighbor when the children  
heard someone at the door. They  
assumed and scrambled under the bed.  
The prowler entered and demanded to  
know if they knew the whereabouts of  
their parents and where they kept  
their money. Both children refused  
to answer and he placed his revolver  
at the side of Marian:

"Mother keeps her money down-  
stairs. I'll go right down and get it  
for you," the child said and darted  
down the stairs. She ran across  
the street to the home of Fred Lowe,  
1350 Norwood street, and told him of  
their plight. He grabbed a revolver  
and ran into the Isbell home. The  
bandit escaped through a window.

# UNION LABOR Presents a SOLID FRONT for W<sup>m</sup> Hale Thompson for Mayor

**M**UDGING the water does not change facts. Let's get down to brass tacks, brush aside clouds of partisan misstatements and look truth in the face. A lot of wild and hysterical claims do not alter conditions. People are doing their own thinking, and none more so than the great army of Organized Labor who resent the insolent attitude of a lot of paid "spellbinders" in assuming to dictate to them how they shall cast their ballots. They know that these self-appointed "Generals" with lily-white hands never did a bit of constructive labor in their lives. This sort of stuff doesn't lie well on the stomach of Organized Labor. Here's a rock-ribbed FACT that lifts its head like Mt. Everest above the clouds of misrepresentation, garbled facts and malicious insinuations:

## 95% of the Trades Unions in Chicago Endorse Thompson

### Over 300,000 Members of Labor Unions Endorse Thompson

Read these resolutions of the Wage-Earners' League unreservedly endorsing William Hale Thompson for Mayor. They tell WHY this endorsement is so enthusiastically given:

**WHEREAS**, The Cook County Wage-Earners' League, made up of trade unionists, subscribing to the political policy of the American Federation of Labor and reflecting the hopes, sentiments and the judgment of the working men and women of Chicago, believe that every voter should take an active interest and part in the coming election of a Mayor and other city officials, because the development and future of our city, the health, safety and comfort of our citizens and the welfare of our children, by and through the conduct of our Public School System, are at stake, and

**WHEREAS**, William Hale Thompson, Mayor of our city from 1915 to 1923, has agreed, after more than a half million voting citizens petitioned him to do so and pledged him their support, to again be a candidate for that important office, and

**WHEREAS**, during his service as Mayor, William Hale Thompson proved to be the greatest executive of our city it has ever had, not only because of constructive work done as "The Builder" of many public works and in boosting our city throughout the world, bringing business and visitors here, but in giving wage-earners a "square deal" and in protecting labor, business and all elements of our city against crime and special privilege, and

**WHEREAS**, during the eight years of William Hale Thompson as Mayor, he refused to turn the control of our public schools over to those who desire to cut short our children's education in order to get them into industry sooner because immigration is now restricted and because he would not go along with the big tax dodgers and take orders from certain newspapers, he is now receiving the bitter opposition of those newspapers, and special interests.

**THEREFORE**, BE IT RESOLVED, that we, the Cook County Wage-Earners' League, do hereby congratulate William Hale Thompson on the enemies he has made in his consistent and courageous public service, and be it further

**RESOLVED**, that the Cook County Wage-Earners' League do hereby endorse William Hale Thompson for re-election as Mayor of Chicago and that we urge all wage-earners and all other citizens to work and vote for him in order that we may have "government of the people, by the people, for the people" in Chicago, and a greater and better city.

MICHAEL J. KELLY,  
President

ALD. OSCAR F. NELSON,  
Vice Pres., Chicago Federation of Labor

JAMES BERNARD JACOB,  
Secretary

PATRICK F. SULLIVAN,  
Chairman, Committee on Candidates

**WHEREAS**, we find that the position taken by William Hale Thompson where organized labor is concerned has been both in words and actions such that we are confident that he, as Chief Executive of our city, will continue to be fair minded, fearless and treat all matters wherein we are concerned in an equitable manner, and

**WHEREAS**, we desire that which is right and just for our movement and we believe that the end which we are striving for will be attained by the election of WILLIAM HALE THOMPSON.

### Why Labor Union is for Thompson

Let Union Labor have the front of the stage and say in its OWN WORDS WHY it favors William Hale Thompson. This should dispose finally of all false claims and desperate attempts launched by irresponsible persons to mislead the public for selfish ends. Here are their words:

"William Hale Thompson stands for the best interest of our school children and our public schools. He is opposed to the factory system of education and the curtailment of education for our children. As Mayor, he was constructive—he did things—for all Chicago. He is honest and vigorous, and not the tool or puppet of any newspapers or special interests. His election means the protection of the health, safety and comfort of all citizens, and the development and growth of Chicago, which means more prosperity for everyone. Help your own interests and help Chicago by electing WILLIAM HALE THOMPSON as Mayor."

No Guesswork About This

Organized Labor knows that every member of the "Citizens' Committee to Enforce the Landis Award" is fighting tooth and toenail for the election of Mayor Dever; that these men have attempted, with every resource at their command, to disrupt Union Labor in Chicago and tear down the bulwark it has erected to safeguard a living wage to the workman. The members of Organized Labor haven't short memories.

They do not want to restore the old conditions with their faces to the grindstone, glad to work at any price. They demand, as is their right, an honest wage for an honest day's labor.

## If You Doubt Where Union Labor Stands Check This Line-up

These great Labor Unions are affiliated with the American Federation of Labor, and through their respective representatives and executives have unqualifiedly endorsed WILLIAM HALE THOMPSON for Mayor. In doing this they say: "We are following the policy of the American Federation of Labor to try and elect our friends and defeat our enemies."

## FAIL TO UNSEAT JUDGE DEARTH BY TWO VOTES

But Majority Holds Him  
Guilty on 5 Counts.

BY PHILIP KINSLEY.  
Indianapolis, Ind., April 1.—(Spe-  
cial)—Indiana's latest political drama  
came to an end today when the  
Senate, by two votes only, failed to  
convict Judge Clarence W. Dearth  
of Muncie on charges of corruption in  
office.

The fact that a majority of the 49  
senators in all but two of the seven  
counts in the indictment voted  
against Dearth came as a plain  
reflection of a state-wide protest  
against manipulation of the jury system  
even by good church people for  
good causes. A two-thirds majority is  
required by law for conviction.

The church people are aroused and  
thinking along the lines of taking  
further action in a warning to the Senate,  
after the vote was announced, by Senator  
Oliver Kline, a farmer of Hunting-

ton State to Know Facts.

Speaking in favor of a motion to  
print all the evidence in the  
Dearth case, it was said:

"I have been here for economy, but I am  
not for economy in this thing. Nothing  
is Indiana today is being talked about  
more, thought about more, than this  
case. I want the state to know all that  
was brought here as evidence. It will  
not be long before something else like  
this goes up again."

The count on which Dearth came so  
close to conviction was that in which he  
was charged with having appointed  
Jacob Cavanaugh as jury commissioner  
when Cavanaugh was not qualified and  
had deeded Cavanaugh a lot of  
his own, worth \$20, for \$1.

There was no question about these  
facts. The judge admitted them.  
Cavanaugh was a member of the  
just Methodist Sunday school class  
and Dearth seated Cavanaugh to seat  
him, with church membership as first  
qualification, and persistently evaded  
the tax duplicate law in so doing.

Klan, Methodists Back Judge.

Seventeen senators saved Dearth  
from conviction on this. Among the  
seventeen those of Klan and Methodists  
and their supporters. Some of  
the ten lawyers voted guilty. The  
two who have sat on the bench with  
Lieut. Gov. Van Orman, guiding him  
along legal paths: Denver C. Harlan,  
Richmond attorney, and Curtis Shaeffer,  
Vincennes attorney, voted guilty.

Those who voted not guilty were:  
Charles H. Beeson, Winchester, Re-  
publican; John E. Clegg, Indianapolis;  
L. G. Bradford, South Bend; Will  
Brown, Hebron; Sumner D. Clancy,  
Indianapolis; Fred M. Dickerman, Indi-  
anapolis; William P. Evans, Indiana po-  
litical; Floyd Garrett, Battleground; Rowland H. Hill, Cartage;

Whiting; Herman C. Peil, Carbon, Wil-  
liam T. Quillen, Indianapolis; George  
W. Sims, Terre Haute.

G. O. P. Machine for Defense.  
Back of many of these votes is seen  
not only the Klan influence, which was  
sufficient to block impeachment, but  
that of the Republican machine, which  
did not want a Republican judge dis-  
turbed and such a club held over other  
judges. Senator Nejdi, for instance, is  
president pro tem of the senate and  
leader of the Republican state machine  
group.

Senator Sims, candidate for secre-  
tary of state; Quillen, who holds ap-  
pointment under Mayor Duval, and  
several others frequently referred to  
as Klan members or sympathizers  
stuck by Dearth and many of the  
group congratulated him when the  
vote was over.

Vote on Various Counts.

The vote was taken in silence without  
the debate among senators that  
had been expected, and after newspaper  
correspondents had left the room and the  
public had been excluded. On the various  
counts the vote stood as follows:

1. Confession of Muncie Post-Dem-  
ocrat containing an attack on Judge  
Dearth: guilty, 29; not guilty, 20.

2. The Cavanaugh charge: guilty, 32;  
not guilty, 17.

3. That Dearth had sanctioned ir-  
regular drawing of jurors: guilty, 24;  
not guilty, 25.

4. That Dearth manipulated grand  
and petit juries to control decisions:  
guilty, 28; not guilty, 23.

5. Dismissal of impeachment of  
Sheriff McCauley without a hearing:  
guilty, 17; not guilty, 32.

6. That Dearth confiscated news-  
paper property without hearing: guilty;  
not guilty, 26.

7. That Dearth so manipulated juries  
that many citizens could not obtain  
a fair trial.

fair and impartial trials: guilty, 28;  
not guilty, 21.

Will Hold Court As Usual.  
Judge Dearth, his wife and a small  
group of Muncie folk sat in the dim  
corridor while the vote was being  
taken. As soon as he knew the result  
he said he would go right back to  
Muncie and hold court tomorrow as  
usual; everything would go on as in  
the past.

But already there has been a change  
in Dearth's court. His wife has  
polled a new commissioner two days  
ago, Charles Guthrie, and the drawing  
of jurors for the April term is said to  
include, for the first time in years,  
representation from all parts of the  
county instead of a select group of  
Muncie dixies.

The judge was called to the senate

chamber as soon as the last poll had  
been taken and summoned before the  
young Lieutenant governor who may  
some day be governor, Van Orman.

The presiding judge said:

"Judge Dearth, it is the judgment  
of this senate that you stand not  
guilty on each of the articles of im-  
peachment on which you have been  
tried."

That was all.

The judge pulled a large handker-  
chief from his pocket and wiped his  
eyes. He has been greatly troubled for  
the last few days.

A decision to print the proceedings,  
and the senate adjourned. They had  
come close to doing something new in  
Indiana, and the next time they may  
do it.

**TWO PICTURES OF THOMPSON.**

Thompson says he is wet and will put the beer back in the ice box, but he helped put a dry vote in the senate and two in the house of representatives. He is against the Volstead act, but elected its friends.

He says he is against King George, whose nose he finds too much in the Chicago schools, but the text books in which he sees King George's plots were put in school use by his own school board.

He says he is for the public against the traction barons and financial bigwigs, but he has traded at Mr. Insull's coattails and never has opposed a rate enjoyed by the biggest utility man in the west.

He says he is for the service men, but when they were in service as mayor was obstructing the efforts of their home people to support them, back them up and make their sacrifice lighter.

**DOCTOR AND PATIENT.**

And now comes Dr. Wendell Phillips of New York, president of the American Medical Association, with kind words for the family physician. They are a part of the reaction against certain inevitable tendencies in the science and practice of medicine which in recent years has appeared faintly, it is true, yet with a certain increasing insistence.

It is difficult to describe this reaction without opening the way to wrong inferences. It is not a reaction against specialization, because specialization is necessary in an advanced stage of every general science, and in the case of medicine it has added enormously to the fund of accurate knowledge and in important respects has improved medical technique. Research and specialization are necessary to progress, and they have come to stay. But many thoughtful men have observed that the high honors and rewards which have been going to the research man and the specialist have been drawing attention from other aspects of the art and practice of medicine, with a consequent loss not only to the public but also to medicine itself. Therapeutics, that part of science which concerns itself with the cure of disease, has been in danger of becoming Cinderella, sitting at home by the ashes without much prospect of attention from the fairy prince. Success.

A distinguished surgeon, lately the victim of a therapeutic error at the hands of a distinguished colleague, was heard to remark with some feeling:

"These doctors! They probe around to find what you've got and give a long name to it and then they are done with you." Virtually the same comment on his profession was made a few years ago by another leading doctor, who against the appeal of his friends insisted upon taking the chair of therapeutics in a famous institution. It's about time, he said, that we realize that relieving the sick is our job.

As for specialization, necessary as it is, it is not all of medicine. The knowledge of the specialist is as limited as it is profound in its own field, and therefore it is capable of serious errors. Coordination is essential. It tends necessarily to deal with the patient in piecemeal and the patient happens to be an entity, a human being, not a case, a subtly interacting creature who, to be treated with real science—that is, with real knowledge—must be studied and treated as a whole being.

Of course, there are disorders which can be most effectively examined, diagnosed, and treated by the specialist, for the specialist by concentrating has acquired not only a greater knowledge of its diagnosis and cure. We are not underestimating the value of specialization, but the general physician and, we think especially, the family doctor remains, as Dr. Phillips is reported to assert, the foundation of the medical profession. It is he who knows the case as a human being, as a complex interacting entity, and is able to discern and interpret reactions which the specialist may overlook or misinterpret and which may be of decisive importance. It is the family doctor who comes to know the history of the patient broadly, including such relevant factors as mental and moral habit and temperament, to say nothing of environmental facts which may have a significant bearing upon the patient's trouble. It is also the family doctor upon whom the pressure for relief is most insistent. The office specialist sees a case come in and go out. The family doctor does not get off so easily. He is a family doctor and has the family at his elbow. He can't give his patient's disorder a long name and walk away. He stays to answer the human appeal: What are you going to do about it?

The point Dr. Phillips and others would make, it seems, is that therapeutics in its broadest sense needs to be underlined in medical education at this time, and that the service of the medical profession must not too much emphasize its pure science aspects while losing interest in the practical relief of suffering. To treat a disease as the disorder of a mere mechanism, a problem in physics, chemistry, and related material sciences is, we venture to say, less scientific than it is assumed to be. The highest function of the art and

science of medicine is the relief of human suffering. Research is essential to that relief. But it is, medically speaking, an aid and not an end. Specialization represents an important advance in the organization and use of knowledge, but it is an auxiliary, not the fundamental structure, of the art of medicine.

**THE COLORED VOTERS.**

One issue in the campaign is difficult to handle. It is the colored vote. It is such an issue as shouldn't be in politics and it is such a one as always will be in it when any one opens a door to it or makes an occasion. The colored voters of Chicago and of other cities are nearly all Republicans and probably will be Republicans for many years. That is natural. Even without a hurrah about it they would vote for Thompson. That would have been conceded and the vote virtually checked off from the start.

The difficulty in accepting the fact that there is such an issue is inherent in it. Whatever is said about a question which should not be in political consideration tends to aggravate it. When Thompson spoke in the Negro wards he was, as usual, himself. He said in effect that he was the only major who ever had given the colored population a square deal and the only one who would. He prepared his listeners to believe that life for them under him would be different from what it had been.

Democrats have picked this up. Dever hasn't.

We believe he is the last man who would, but it has been used. Thompson makes a point of resenting it, but he started it. He made a special case of what he would do for the colored people and his opponents are rubbing it in. He was violent in what he said and some of his opponents are trying to make the most of it.

The whites and blacks of Chicago will have to get along together after the election. They can. All they need do is be themselves and behave themselves. Their relations are all right when they are not aggravated in their consciousness.

The voting should close the incident.

**FOREIGN RIGHTS IN CHINA.**

The Cantonese commander, Gen. Chang Kai-Shek, pretends surprise that special precautions have been taken by foreign powers to protect the foreign concessions at Shanghai. The general says the ships and wire entanglements made an unfavorable impression on him, as he interpreted this "warlike action" as a reflection on the Nationalist movement since such precautions were not taken when the "militarists," that is, the northern troops, were in control.

The Cantonese chief is talking through his hat. He knows that the advance of his Nationalists has been accompanied by increasing hostility against foreigners and increasing dangers to their lives and interests. If there are more warships of the bund and barriers up around the foreign quarters, he knows it is because his party represents a more active and violent anti-foreignism than the northern factions have preached or practiced, and consequently have made it necessary to increase foreign forces for the protection of foreigners.

Gen. Chang asserts that he will be responsible for the safety of foreigners and complains that our measures of protection prevent him from fulfilling this responsibility. But neither at Hankow nor at Nanking was this responsibility so thoroughly fulfilled that the foreigners in Shanghai are willing or can be expected to be willing to rely upon Gen. Chang. There is nothing the Nationalists' ally and adviser, Moscow, would rather have happen than rough usage of foreigners in Shanghai which would bring about really punitive measures by the powers against China.

The Nationalists want to take over the foreign city, a modern city built by foreign enterprise, made healthy, safe, and comfortable by foreigners, solvent, prosperous and beneficial to China only because it has been protected from Chinese methods and conditions. It should be protected by whatever means are called for in the present situation.

When Gen. Chang demands the abolition of martial law and the right to police the settlement with his forces, although he has not been able to give protection to foreigners or foreign property elsewhere, he is not to be taken seriously.

Nothing but evil to both foreign interests and the eventual interests of China can come from an impression in China that the foreign governments are afraid to act with necessary force for the protection of their rights and interests and the punishment of wrongs committed against them.

**THE LINGUISTICS OF MARBLES.**

(Detroit Free Press.)

To the casual listener it seems that the small boys are saying "marbles" as often as "marbles," and whether that is a conscious play upon a word, like "skating" for "skating," or a misunderstanding of the part of some of the marble players, it may be indicative of change which will be lasting. Language is particularly plastic on the tongues of the young.

There was a time when marbles were actually made of marble. Back in the 1700s, Nuremberg in Bavaria and Derbyshire in England carried on a brisk trade in these articles, utilizing the waste of stone yards and working the material roughly into spheres by means of a little mechanism or iron. Marble could stand a treatment similar to some of the tests of the Bureau of Standards that would break much other stone along the natural lines of fracture. The remarkable staff of the workers in the 2d Illinois cavalry, and some Wisconsin troops, trained in a攻占assassination, and probably descended on Union City, and surprised a large force of rebels under the notorious Clay King at breakfast. The rebels fled helter-skelter in every direction. Several of them were killed and about 100 taken prisoner. The rout was complete and cuts off an important rebel communication.

CAIRO.—F. B. Wilkie of the New

York Times, who accompanied the expedition to Union City, returned with copies of the Memphis Appeal and Charleston Mercury. These papers say that Jeff Davis has advised the conference committee to release the prisoners released by the Yankees government on parole to be absolved from their oath and allowed to take part in the struggle for independence.

PHILADELPHIA.—Detected in thefts, William H. Lane, a Negro butler, killed his employer, Mrs. Ella J. Furbush, and her 12 year old daughter, Madeline, and probably fatally wounded another daughter, Eloise, 8 years old.

MILWAUKEE.—Major Rose was re-elected for a third term in a Democratic landslide by a plurality of more than 8,000.

**PHYSICAL NAGGING MAY CAUSE CANCER.**

ADDITIONAL evidence that continual nagging in one cause of cancer is found in a recent London letter to the Journal of the American Medical Association. The nagging referred to is physical, not mental.

There is a kind of cancer which is known as mule spinner's cancer. It affects men who work as cloth weavers and who, in their work, must bend over their machines many hundred times a day. The misdection of the body rubs against the machine. The accepted theory of the cause of mule spinner's cancer has been that it was one of those or other cancers which occasionally seem and that is caused by mineral oil used to grease the spinning machine. This oil is supposed to fly off, strike and saturate the clothing of the operative.

Another suggestion is that elastic suspenders be used instead of the present kind; or perhaps the overalls can be held in place by a belt instead of straps over the shoulder. This is the French plan.

There is a kind of cancer which is known as mule spinner's cancer. It affects men who work as cloth weavers and who, in their work, must bend over their machines many hundred times a day. The misdection of the body rubs against the machine. The accepted theory of the cause of mule spinner's cancer has been that it was one of those or other cancers which occasionally seem and that is caused by mineral oil used to grease the spinning machine. This oil is supposed to fly off, strike and saturate the clothing of the operative.

Dr. J. Robertson opposes this view for the following reasons:

There is always plenty of this oil on the floor. The weavers walk barefooted on these blue overalls. They do not have cancer of the feet.

While some oil strikes the clothing of the weaver, investigation shows that the misdection parts of the garments are not especially saturated with it.

Mule spinners in French cloth factories never have mule spinner's cancer. There was no such disease in British factories until about 1905. Prior to that time the men were loosely woven white cotton suits. If they wore suspenders they were skin tight. In the custom of wearing blue overalls made of a harsh cloth has become universal. The suspenders for these overalls are of inelastic, heavy duck.

They wear no underclothing. The combination of scratchy, coarse blue overalls against the skin, of rubbing due to wearing elastic suspenders, and oft repeated bending and rubbing is the real underlying cause of mule spinner's cancer. He thinks it would be fairer to call this kind of cancer blue overalls cancer.

It suggests two or three ways out of the difficulty. One is to have the men go back to the

old time soft white cotton work suit. It is, however, a very uncomfortable article of clothing.

Devereux Hill, March 25.—(The Legal Friend of the People.)—I read with interest your article in the Tribune of March 12, concerning the "spanning age." I am sorry to say that the author of the article is entirely wrong.

Obviously, circumstances might be such that a person might be fined for spanging a two-year-old child.

**ANNEXING THE SUBURBS.**

Chicago, March 25.—(To the Legal Friend of the People.)—Can a town, recently incorporated, annex adjacent territory if such annexation is requested by a majority of individuals in such territory? I understand this majority being represented, will entitle forty persons owning approximately forty acres of land to annex. The minority, being against annexation, are represented by forty individuals owning approximately 140 acres of the land to be annexed. The minority, owning the largest amount of land—small farms of two to five acres average—has no desire

to come into the town corporation, for the reason that they feel their land will be assessed on a tax lot basis which will be higher than the value of their property.

Section 355 of the Cities, Towns and Villages Act in the 1925 Illinois Statutes provides, that on a petition signed by a majority of the legal voters and by a majority of the property owners in any territory contiguous to the city or village or town, the county board shall annex to the voter of the people of such city or town, and in case the question of annexation shall receive a majority of all the votes cast, the territory shall be annexed upon filing a copy of the ordinance with an accurate map of the territory in the office of the recorder of deeds.

# This VERDICT can't be set aside

**FRANK R. SCHWENDEL**  
Brig. General, Ill. National Guard  
We may rely upon Mayor Dever to continue to give us an administration based upon sound business principles, as against political expediency. The great achievements of his first term should be encouraged by decisive mass support of his re-election at the polls. One good term deserves another. To return him to office is the least we can do in recognition of a job well done.

**VICTOR A. OLANDER**  
Sec.-Treas. State Federation of Labor  
William E. Dever has always been a man of the people. First and for all, I agree that his record as alderman was above reproach. None challenges the splendid service he has given to the city. His record as mayor is of the same unimpeachable character. The interests of the city as a whole are greater than the interests of party politics. Mayor Dever should be re-elected.

**HON. JACOB M. DICKINSON**  
Former Secretary of War  
Mayor Dever has been an honest to the people of Chicago and has reflected great credit upon our city throughout the world. He has done much to relieve Chicago of the reproach on account of the bad government which it has been permitted to have. Citizens for good government, sound administration, unselfish devotion to duty, preference of merit to party, to personal advancement, regardless of party, cannot fail to support Mayor Dever.

**BENJAMIN J. ROSENTHAL**  
Business Man  
I am supporting Mayor Dever for re-election because he has given Chicago the best interest of Chicago above partisanship. This was shown in his original appointment on the school board, which actually appointed a school board with a majority of its members of the opposite party. His record entitles him to the support of every well-minded public-spirited citizen of Chicago irrespective of race, creed or color.

**A. ALONZO "OLD MAN" STAGG**  
Athletic Director, University of Chicago  
I favor the re-election of William E. Dever because he has been an excellent Mayor; because he has a splendid sense of duty and of justice; because his chief interest is in doing his job and doing it well; because he has made uniformly good appointments, and made them for the welfare of the city rather than for building up a political machine.

**AMELIA SEARS**  
Social Worker  
During the Dever Administration, vigorous measures have been taken to improve the welfare of the city. The previous Administration, which failed to do this, was responsible for the unnecessary deaths of hundreds of babies. The Dever Administration has built many new schools. The school money is well spent. The administration has provided thousands of children opportunity for education. For many good reasons Dever should be re-elected.

Public opinion, rising like a tidal wave, rightfully decrees Mayor Dever's re-election.

Public opinion is the one force in Chicago greater than the huge, ruthless, grasping, political machine now aimed at Mayor Dever in a vain attempt to clear the road for spoilsman.

Citizens of Chicago—here is a spectacle to make you think. Here before your eyes are the forces of decency and progress aroused—to guard and save your city.

Here is an irresistible union of unselfish fighters banded together to fight for a people's heritage and a city's good name.

Chicago would be the gainer with four more years of Dever and "endevor." His work and results deserve recognition; not to give it will show that Chicago lacks in appreciation of genuinely high public service. A voter's complete dependence on party in city or township politics, involves the sacrifice of personal independence. I shall vote for Mayor Dever.

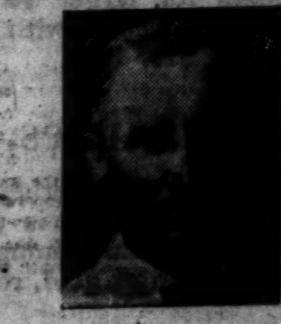

I am for Mayor Dever. It is a choice between honesty, efficiency, and a conscientious effort to enforce the law as proven by four years of Mayor Dever's administration, or approving the proclaimed intention of his opponent, to "open up the town." "America First," dedicated to the lawlessness that a wide open town stands for, is a brutal slander on a supposedly patriotic sentiment.

For over thirty years I have been engaged in the fire insurance business in Chicago and during all of that time I know that the Fire Department has never been operated in a more intelligent manner than under the present administration. At the time Mr. Dever was appointed Mayor, Dever was in the worst condition. He had ever been. I recently believe the City of Chicago has received a larger share of every dollar spent by Mayor Dever's administration than at any previous time.

I urge Mayor Dever's re-election because he has given Chicago a good Department of Health, a good Department of Public Works, efficiently administered; and the Children of Chicago a good School Board and good teachers.

He has improved back of the Chicago Plan by building the Wacker Drive for \$500,000 less than the estimate, and by giving us a straight River and a better harbor. I believe Mayor Dever will give the City an adequate and quick transportation system.

If the mothers of Chicago want a mayor who has openly promised to give free license to all those towns which demonize the youth of any city—they will know for whom to vote. On the other hand, if the mothers are honestly concerned about the best interests of Chicago's children, they will vote as a unit for Mayor William E. Dever.

The great public projects which Mayor Dever's administration has undertaken are of greatest value to the laboring classes, for they will give employment to thousands of men and women. I would regret very much to see any change made in the midst of these undertakings, because Mayor Dever inspires confidence in his sincerity of purpose to do justice to all concerned. His services for an entire term are of inestimable value to Chicago and all its people.

A remarkable man—wise, honest, practical, unselfish, and courageous—was elected for public service four years ago and has worked devotedly and successfully for Chicago ever since. William E. Dever is one of the great Mayors of Chicago's history. Let's show that he is in common sense, and re-elect him by an overwhelming majority.

**On this page you see but a few of a great host.**

But even here you see union man and business man, working woman and club woman, railroad president and factory hand, Jew and Gentile, great philanthropist and plain citizen, noted educator and sturdy toiler—all joining hearts and hands in this fight to insure the re-election of an honest, faithful man.

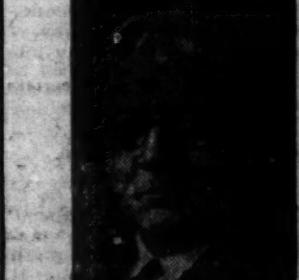

*Will you do less than they? Will you fall short of your duty in this crucial hour?*

Don't be confused by false issues and misrepresentations made to befog the real issue. This is a fight for decency in city government, opposed to a conspiracy of greed.

I am whole-heartedly for the re-election of Mayor Dever. He is the best Mayor during my forty-two years in Chicago. He has conducted the affairs in the City Hall with conspicuous honesty and faithfulness. He has surrounded himself with the best group of officials any Chicago mayor has ever had.

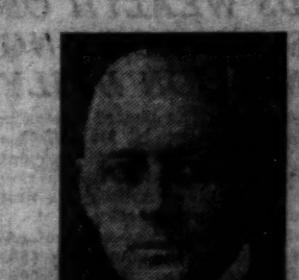

I am a Republican in national politics. This distinction, however, has no place in local affairs. It is absolutely meaningless in city government. In view of the character of his opponent, let all work for Mayor Dever's re-election.

**WILLIAM QUINLAN**  
Pres. Amalgamated Assn. Street Ry. Employees  
Major Dever should be re-elected because he has a constructive mind, has proven competent, is as broad as the needs of the city demand, and is popular with his dealing with everybody. He is our friend.

**COL. JOHN A. HOLABIRD**  
Architect  
I am for Mayor Dever because his outstanding qualities are **SINCERITY** and **HONESTY**. His political movements have been uniformly excellent, and no charge of dishonesty or favoritism has ever been brought against him, and the public improvements which have been carried on and completed under his administration are the best that can be reported by all people who are striving to uphold the honor of Chicago, and to keep it a decent place to live in.

**MITCHELL D. POLLANSBEE**  
Former Pres. Chicago Bar Association  
I shall vote for Dever because I admire his economy, efficiency and excellence. He dislikes excessive experts, racial and religious bigotry, and the slogan "Growth over a municipal campaign."

**REV. FREDERICK F. SHANNON**  
Pastor Central Methodist Church  
Five reasons explain my support of Mayor Dever:  
1. He is Honest.  
2. He is Able.  
3. He is Fair.  
4. He is Devoted.

# TROOPS KILL 37 INSURGENTS IN MEXICAN BATTLE

Hand to Hand Fight Along  
Walls of Canyon.

BY JOHN CORNIN.  
(Chicago Tribune Press Service.)

[OCTOBER 1927: BY THE CHICAGO TRIBUNE.]  
IRAPUATO, Guanajuato, Mexico, April 1.—A desperate battle, lasting from early morning until sunset, was fought yesterday on the border of the states of Michoacan and Jalisco, between troops of the Mexican army, under Gen. Pablo Diaz, and rebels bearing the banner of religious revolt. The 300 rebels entrenched themselves behind rocks on both sides of a deep canyon. Four hundred federal troops tried to force a passage of the canyon by climbing along its rim. A hand-to-hand battle began when the rebel leaders forced one after another of the places defended by the insurgents, who, standing on high protecting elevations, had an undisputed advantage over the federales. At one time during the battle more than 400 men were struggling for the possession of one vantage point.

Rebels Leave 37 Dead.

Step by step, all day, the insurgents retreated. Toward night they withdrew into the rugged mountains, carrying some of their wounded and more than thirty-seven dead and more than forty-four captured into the federal lines. These were taken from the battlefield by the Diaz forces. The battle was the most desperate in the present campaign against the rebels.

Rebels Leave 37 Dead.

Several thousand fathers and mothers appeared before the national police, calling upon President Calles to put a stop to this treatment for their children.

It is charged that numerous deaths and cases of blindness have resulted from the head of health's experimental campaign with children of the federal district. The sponsor of the movement is Dr. Fulano Gastaum, chief of the board of health.

## CHILD, ASLEEP FOR FIVE WEEKS, IS RECOVERING

After sleeping for five weeks, Mamie Kulaga, 8 years old, 5624 West 50th place, Cicero, arose in her bed yesterday in the Berwyn hospital and played with her doll. According to Dr. William J. Vynalek, staff physician, the child, on her way to a complete recovery.

Early in February, the little girl complained of having pains in her head and severe pain in her head and eyes. Shortly afterward she fell into a deep sleep. Her illness was diagnosed as encephalitis lethargica, or sleeping sickness. Toward noon yesterday she opened her eyes for the first time in five weeks. Three hours later she was still awake but drowsy.

**REJECTED SUITOR  
KILLS DIVORCED  
MOTHER OF THREE**

Because Mrs. Stella Bohanek, 20 years old, mother of three small children, who had recently divorced her husband, spurned his attentions, John Dynowski, 46, of 2505 South Turner avenue, shot and killed her yesterday in her home at 4151 West 22d street, while her children looked on. He then shot himself in the head and is in a serious condition at the county hospital.

Dynowski is the father of five children. Recently his wife had been committed to the state hospital for the insane at Dunning.

A warrant charging him with disorderly conduct had been issued on the complaint of Mrs. Bohanek at the Fillmore Avenue court early yesterday. Dynowski later appeared at her home and demanded an explanation. When she informed him that she was sincere he drew a revolver and fired four shots into her body.

Dynowski ran to the rear of 4147 West 22d street, where he fired the weapon into his own brain. According to Mrs. Agnes Brzinski and Mrs. Sophie Radtke, sisters of the slain woman, Dynowski was forcing his attentions on their sister for the last three months.

ELMER GANTRY—ELMER GANTRY—ELMER GANTRY

**BOOKS****George Blake Wins  
Praise as Writer  
of English Novels**By Frank Swinnerton.  
LONDON.—[Special Correspondence.]—A young novelist who may be unknown to American readers, but whose work is upon a high plane, and of considerable merit, is Mr. George Blake, the editor of "John o' London's Weekly." He has written only two novels as yet, and both of them owing to the fact that they deal with Scottish domestic life, have had to fight against the prejudice which exists regarding books in which the Scottish dialect appears. They have fought successfully in England, and I wonder that, as far as I can see, no enterprising American publisher has noted their exceptional skill and exceptional promise as a writer. The titles of the books are "Mince, Collop, Close" and "Young Malcolm."

Mr. Blake is an able journalist, as well as a creative writer. His paper is probably the most popular weekly in Scotland, and it is this that is published in England. And the title of it, which to the uninitiated gives no hint of books, arose in this way. Mr. T. P. O'Connor, the indefatigable journalist who first, in England, decorated a Sunday newspaper with articles about books, started a number of years before the war a weekly paper called "T. P.'s Weekly." His chief helper in that venture was Mr. Wilfred Whitten, who is well known as one of the best writers of fiction in the country, and Mr. Whitten used the pseudonym "John o' London." After the war (the old "T. P.'s Weekly" having perished untimely, a death that was ever a mystery to me), a new journal or lines similar to those of the defunct, and bearing the familiar name by which Wilfred Whitten had become greatly loved in many homes, was published. Its success in the first place was due to Mr. Whitten's Diaz, but now that Mr. Blake edits "The Church Times" with really admirable skill, his place has been taken by Mr. Blake. I wish Mr. Blake all power, and many readers for his excellent novels, and I would urge American readers who are not afraid of stories of modern life, realistic in tone, and scrupulous in execution, to have an eye to them.

Another item of news which should be of interest to all Chicago book readers is that Mr. John Gunther has finished a new novel, which will be published here in the spring. It is called "Peter Lancelot." Mr. Gunther has had the unique—or almost unique—experience of making himself a name in England before he made it by literature in the United States. His first novel, "The Red Pavilion," did not please the American publishers when it was offered to them. But it found an English publisher and it was a success in England. Now, I am glad to hear, it is an even greater success in America.

"China and the Powers," by Henry Klitzinger Norton. [John Day.] It is the purpose of this book to find any book that tells the truth about China, because China is at this moment making the history which will some day be written of it. But so far as he was able, and by snatching his manuscript from the printers, and holding it up as long as he possibly could before publication date in February, Henry Klitzinger Norton has told the truth in "China and the Powers." He was chairman of the conference on "The Chinese Republic and the Powers" at the Williamson International of Politics, and his book is a survey of the conference as well as a conclusion drawn from the discussions. Many of the prophecies made by Mr. Norton have already come to pass.

Mr. Blake is now engaged upon a third story, in which I hope he will either break away from Scotland or break down altogether the prejudices to which I have referred. Other Scottish writers have done so in the past, but only as individuals, and it is extraordinary to think that although Sir James Barrie has devoted readers the Scots as a nation, when they put

their own tongue into books, have to fight hard for acceptance.

This is the first of Count Keyserling's novels to be translated into English. Whether it is his first novel or not I cannot say. But I can say that this Count Keyserling and the man who created him of every world I have told us all there is to know about modern marriage (with the aid of twenty-four others) are not one and the same, but, I believe, cousins. Anyway, Count Edward von Keyserling has been receiving much praise lately for some short stories which were published in the Dial; hence the eager publication of his novel.

William J. Locke is one of the even-est writers in the business. A Locke book is always up to standard, and is standard. The same may be said of his short stories, of which, however, there are not nearly so many as the world might think. This collection, just published, contains the stories which he has written since "Far Away Stories," published years ago.

## Church Singers Thrill Elmer Via the Radio

**He Finds Many Other Artists to Praise.**

BY ELMER DOUGLASS.

The Waltham male chorus of the Jehovah Evangelical church has at this 10:35 instant completed a magnificent program of sacred music, WEBH, 10:25 to 10:35. It was of the grand, solid-toned choral singing that is pleasing and inspiring.

The Goldman band concert, New York, through WLIB, 7 to 8, delved deeper in music's love than usual, giving us a first serial hearing of Goldmark's colorful overture, "Sakuntala," excerpts from Wagner's "Die Walküre," the latter part of the program was lighter operatic.

The Northwestern University Glee club, WLS, 8:30 to 9:10, demand in word and thought the best of which we are able to give and the best we are individually able to give is not beyond their worth. Two of Bach's majestic anthems are unknown, some of the older English and Irish folk songs, and a few numbers of Mexican gavottes—not forgetting the lovely song, "Onaway, Awake, be loved," (Coleridge-Taylor), sung by J. Alfred Anderson, tenor.

Mrs. Marx E. Oberndorfer in a Frank L. Stanton program, WMAQ, 9 to 9:30, stated that this poet was the inspiration of possibly fifty songs—"Mighty Lak' a Rose" (Nevin), "Just Awearying for You" (Boone), "Sweet Little Woman of Mine" (Garrett) being among the most familiar.

The piano recital by Miss Ruth Dresser, WMAQ, 9:30 to 10, commanded attention, partly for her pretentious program partly because she hails from Wheaton, Ill., partly because of her considerable talent, partly because her tone was a bit different, the main difference being an inclination to let the left hand dominate over that of the right hand.

Jane Fisk, baritone, in the Young American Artists program, WLS, 8:15, was discovered in the middle of a song at 8:15. A superb radio voice—quite certain an artist of the future.

In the National Concert Artists program, New York, through WLS, 8:45 to 9:15, several soloists, including some large in voice and quality. There were a number of Beethoven songs and violin numbers of an unusual character in this program.

Nick Lucas, the crooning troubadour, WEBH, 10:15, who with his unusually sweet, rich voice in popular numbers, to guitar accompaniment—well, a good closing word for him.

**GEO. W. HINMAN FUNERAL TO BE HELD TUESDAY**

Funeral services for George Wheeler Hinman, who died Thursday, will be held Tuesday afternoon at 4 o'clock from the Church of the Holy Comforter, 222 Kenilworth avenue, Kenilworth. Burial will be in Forest Morris, N. Y., Hinman's birthplace.

The services were delayed to allow a son, George W. Hinman, Jr., who is in Mexico City, and a daughter, Mrs. W. H. Coburn of San Francisco, to attend. Both will arrive here Monday night.

News of the death of the economist and editor brought hundreds of messages of condolence to his widow. President Coolidge sent a telegram to express his sorrow at Mr. Hinman's death.

**Edmond Brwaert, Former French Consul Here, Dies**

Edmond Brwaert, French consul in Chicago at the time of the world's fair and for many years before that, died last Sunday at Lausanne, Switzerland. It was learned here yesterday. He had been ill for seven months.

He was the first French minister to Cuba to which post he was appointed when French consul general in New York. He is survived by his widow, formerly Miss Sude King, daughter of the late Mr. and Mrs. J. McGregor Adams of Chicago. They were married here in 1893.

**Hold Last Rites Today for Rev. Henry Wegner**

The Rev. Henry J. F. Wegner, who died Thursday at the age of 81 in his home at 7215 South Union avenue, will be buried today in Rosehill cemetery. Funeral services will be held at 1 p.m. from the residence to the Normal Park Methodist Episcopal church. The Rev. Mr. Wegner was born in Mecklenburg, Germany, and came to the United States in 1882. He was active in the ministry for 54 years; his last pastorate having been at the Wentworth Avenue church. A widow and five children survive him.

**Adjutant General Kayser of G. A. R. Dies, Aged 81**

Milwaukee, Wis., April 1.—(UPI)—Charles Kayser, 81, national adjutant general of the G. A. R. since October, 1926, died at his home here this afternoon.

### Children's Chorus Will Sing on W-G-N Tonight

A selected voices from a combined children's chorus of three hundred voices from twelve Chicago settlements will sing between 8 and 9 o'clock tonight over W-G-N, THE CHICAGO TIMES station on the Drake hotel. The soloists to be heard have been selected on a competitive basis by a group of professional musicians. The pro-

gram includes "En Route," by Godard, Clifton Jackson of Olivet Institute, will render a violin solo, "Oberass," by Wienawski, and will be accompanied by Jean O. Rydstrom.

The "Old Time Prize Fight," to be told by Quin Ryan tonight at 9 o'clock will be the Dempsey-Firpo bout which took place in New York City in 1923. Brief though this encounter proved to be, it was not without its colorful detail and tense moments, for in the first round the champion was knocked out.

The "Great Moments from Grand Opera" period tonight, 9 to 10 o'clock, brings the second and third acts of "Manzana." The roles will be taken by the W-G-N vocal group, and the music will be under the direction of Henry Selinger.

Doris Olive Kean, soprano, assisted by Frank Mahaffey, pianist, will give a miscellaneous program this afternoon at 4 o'clock.

## Starring Dulcie Jayne

By VIRGINIA TRACY.

SYNOPSIS.

Cornelia Marsh, employed in the scenario department of Herzog's Perfection Motion Picture Studio at Fort Lee, N. J., learns with sorrow that Henry Horner, the head of the department has been fired by Lyman Hertzog, son of the owner of the studio. Every one knows that Lyman is jealous of Henry because he is in love with Dulcie Jayne, the star of the studio, but Dulcie seems to prefer her director, Daniel K. Leland.

Mr. Hertzog suggests to Lyman that they feature Leland as an actor as well as a director and thus causes a quarrel between father and son. Old Mr. Horner suffers a stroke of apoplexy and Lyman looks after him until his death. His first independent action is to discharge Leland, who takes his diminished control and proceeds to finish a picture he's been working on. Lyman meets Dulcie on location and tries to force himself on her. Betty Rosecrans, Leland's camera man, comes to her assistance.

Cornelia Marsh is detained at the studio by Lyman, after the others have gone, to write a criticism of a play he's interested in. She asks Lyman to let her off because she has an engagement to meet her mother downtown and take her to dinner and the theater as a birthday celebration. Lyman refuses. Cornelia misses the last trolley, but Dulcie Jayne comes along in her car and offers her a lift to the ferry. Dulcie invites Cornelia and her mother to dine with her and she tells Cornelia that she is engaged to marry Henry Horner and that she, Henry, and Leland have schemed to break her contract with Herzog's. It contains a clause forbidding her to marry. The only clause in her favor in the objectionable document states that she is to have submitted to her all scenarios passed on by the scenario department. Dulcie writes to Henry and has him submit a countersuit, which Lyman rejects. Dulcie marries Henry.

INSTALLMENT LXI.

NO ANSWER.

In Herzog's entrance doorway three young players of small parts were chattering. "The busses won't stop. Let's phone for a taxi! We can find somebody who'll go fourth and split the price."

"I will," said Cornelia.

"She hasn't called up yet," quivered Mrs. Marsh, out of the sea of evening papers elaborating on Dulcie's arrival. "I've been expecting every minute she'd call up to ask you for news from the office."

"So she will, before the evening's over!" Cornelia, glowing, smiled.

But she did not.

Mrs. Marsh came down the steps from the lawyer's office in what we call a stupor of nervous misery, but it was nothing so merciful as stupor.

"I will," said Cornelia.

Mrs. Marsh came down the steps from the lawyer's office in what we call a stupor of nervous misery, but it was nothing so merciful as stupor.

"I will," said Cornelia.

"She hasn't called up yet," quivered Mrs. Marsh, out of the sea of evening papers elaborating on Dulcie's arrival. "I've been expecting every minute she'd call up to ask you for news from the office."

"So she will, before the evening's over!" Cornelia, glowing, smiled.

But she did not.

If your complexion isn't everything it ought to be, first take an inventory of your health habits before you begin to think about buying that marvelous lotion you heard about. That lotion may be everything it is press agented to be and yet be perfectly useless if your complexion is wrong from the inside. Which, by the way, is where most complexions get their downward start.

You are asked to make these inquiries into your health at this season of the year, particularly. If there is any enemy to the perfect skin hiding upon your person, it is as spring approaches that it shows up most disadvantageously.

I can tell from the voluminous mail I am receiving about how to recuperate the skin that complexions are troubling many. One complains of a shallow skin, another of a fresh outbreak of blackheads and pimples, another of a deathlike pallor, and so on, running the entire gamut of complexion worries.

It is natural that springtime and the skin you love to look at in the mirror are a trifl at odds. Following a season of pitifully little exercise except dancing, and the latter done in a heat laden, heavy atmosphere, is it any wonder the circulation is sluggish?

And the foods of winter! They were not, for the most part, the kind of thing to keep the system in good working order—highly concentrated foodstuffs, starches, sugars, rich meats and gravies. Not half enough of leafy vegetables, salads, fruits were eaten, and water drinking was hardly indulged in at all!

Eliminate heavy foodstuffs. Put yourself on a fruit and vegetable diet at luncheon and dinner for a while. Don't be afraid you will starve to death. You won't. Surprise from the job of earning your daily bread doesn't come so easily.

Our forebears recognized that one's system needed an overhauling in the spring. That's why they went in for strong tonics and blood purifiers. We know now that the best tonics aren't drunk—they're eaten. And they're also taken into the system through the lungs with great drafts of fresh air.

#### BEAUTY ANSWERS

M. K. F.: NO DEFINITE TIME may be fixed for exercising, but just as soon as there is a feeling of fatigue it is time to stop. After a rest of five minutes you may start in again. Exercise should not be taken immediately after a hearty meal. An hour after breakfast or lunch, and two hours after dinner is soon enough. No, three miles an hour is not too fast to walk.

M. O.: NO, COLD SHOWERS aren't sufficient for cleanliness. "The cold shower in the morning is healthful, but in addition one should take two or three warm baths every week to keep the body clean. Warm baths are usually taken before going to bed, and the cold baths in the morning."

#### TRIBUNE COOK BOOK

BY JANE EDDINGTON.

*Acid Prune Caramels.*

Nearly all the dietary problems of spring are in part settled by the use of fruit in ample quantities, and in many cases sugar other than that which is naturally in the fruit must be added to the diet successfully. In other words, you may have to try a real fruit cure, and variety may be in it, as in other sorts of things, the very spice of life.

There are many ways to cook prunes that will give us something quite different from this fruit in an ingredient that would require sugar to be in any less edible. The best known cooking is that which leaves the use of sugar entirely optional; that is, it should be no more needed with the cooked fruit than with a raw apple.

One way to get a chewy, bonbon-like and acid fruit, which means one with full flavor and that is delicious, is to cook the prunes in water and puree them with crushed ginger root and water to a little more than half cover the prunes. Put this into a slow or 300 degree oven and cook for two hours, or use a little more water and cook a little longer. Notice there is no soaking.

One of the things that should determine how much water to use is the condition of the prune. For instance, a two pound package of prunes, all fresh and moist, will in a month in most apartment house kitchens lose moisture enough to amount to one-fourth of a pound. If you are then cooking them you must take that fact into consideration. Use your judgment.

Another way to avoid soaking prunes, which business has a certain disadvantage when you want full flavor, is to wash them and cover a pound of medium sized prunes with two cups of cold water, set over the fire and bring almost to a boil. Then cool and present to cooks with either the pit easily separates from the flesh. The water or liquid around the prunes will then be as good as any fruit juice to drink, and the hot prunes fine if served quite dry, but best hot or nearest like fresh hot fruit. The seed should come out clean after the hour of gentle cooking.

#### FINE FOR CHILDREN!

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe, pleasant remedy for constipation, sour stomach, torpid liver, and other simple disorders. Dr. Edwards a widely known family physician of Ohio prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards Olive Tablets overcome those irritable spells that many children are subject to, to keep their bodies in active, healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

**Society Finds Itself Part of the Feverish Political Campaign**

BY NANCY R.

With practically no large social doings on the immediate horizon, talk of the moment concerns itself with many things—politics, of course, plays of the hour and plans for the summer.

Mrs. Kelling Fairbank and her daughter, Janet Jr., have long been leaders in political as well as social fields, and they are both in the fever of the campaign at the moment, so busy with meetings and parades that when invitations to dine or lunch out are accepted at all, it is with the proviso that they may "slip away right afterward." In fact, I hear that the able Mrs. Fairbank makes a great hit with her audience when she appears after a dinner party, still in evening dress, to address a political meeting.

The next stop is Peggy Hambleton, who has been such a faithful pupil at the Goodman theater all fall and winter, will make her real stage debut tomorrow evening as Lady Sybil in "What Every Woman Knows," is good news indeed.

She is thrilled and not a little awed at the prospect, but her many friends, who are, I understand, going to turn out in full force at the performance, seem not to share her enthusiasm. The play, you may know, is set in the year of a century back in history, and I understand that two of Peggy's costumes are gowns that were worn by the late Mrs. Frank R. Chandler and her sister, Mrs. Harry Gordon Selfridge. They were sent to the Rummage Shop, and Peggy, hearing they were there, hurried down, tried them on and found that they were just the thing for her part.

Washington, D. C., April 1.—[Special]—Mrs. Coolidge was the principal guest at luncheon today of Mrs. Dwight F. Davis, wife of the secretary of war. Mrs. Davis had the cabinet hostesses for her other guests and the party was in the nature of a last meeting for the season. Mrs. Sargent, wife of the attorney general, was the only absentee. Mrs. Yerkes, Mrs. Gandy, Mrs. Jardine, wife of the secretary of agriculture, was the official hostess tonight at the dinner of the American Association of University Women, now holding a convention in Washington. Miss Ellen Fitz Pendleton, president of Wellesley college, was toastmaster. Among the guests at the speaker's table were the British ambassador and Lady Howard, the Italian ambassador and Signor De Matteo, the French ambassador and his daughter, Mme. Chantal. Mrs. Herbert Hoover, honorary chairman of the convention committee, and scores of distinguished Americans.

Mrs. James Robert McKee, daughter of the late President Benjamin Harrison, was the guest of honor with her husband, S. H. Elkins, at luncheon today of Mrs. Rose at the Carlton. Mrs. McKee will return tomorrow to her home, Berkley Lodge at Greenwich, Conn.

**Beauty and Pep Again Agreeably Combined in South Shore Follies**

Plenty of pulchritude and pep in the South Shore Country club's 1927 edition of the South Shore Follies delighted an audience of 800 members and their guests last evening. The performance will be presented again to some 1,500 more this evening. The revue program of popular songs, intricate and effective dancing, and a great deal of local comedy, was perpetrated in a near professional manner by a cast composed of favorites of several years' reputation and others who were debutantes before the ballroom footlights.

Mrs. Julius T. Benedict and Mrs. Wilbur F. McWhinney, who have been stars in many a previous performance, gave the most melodious and spectacular acts. "Movements of Melody" to the piano accompaniment of Morton Howard. The stage settings and costumes were carried out in a black and white motif, and colored lights played over the ensemble to charming effect. Mrs. Benedict and Mrs. McWhinney sang several tunes, and Mr. Howard performed fireworks on the piano.

Others of the performers who starred included Henry Paulson Jr. in "Dancing Steps"; Miss Katherine Healy, Miss Virginia Hall, Miss Ruth Nordwood, and Miss Janet Good, who danced and sang through several scenes; Miss Natalie Frees who carried the comic role in several short musical numbers; John E. McGovern, George E. Gardner, who added his reputation as pianist; Joseph E. Brown and Fred Herendorn, who was actor, manager, and composer.

"The South Shore Beach," opening the second act, was popular, as also were the two final stunts, "That's a Good Girl" and "Black Bottom" in which Miss Phyllis Wilbur, Miss Miriam Massey, Miss Betty Schmidt, Miss Jane Morris, Miss Helen O'Brien, Miss Frances Weary, and Miss Ruth Wainwright expressed that difficult rhythm.

**ENGAGEMENTS**

Mr. and Mrs. George E. Shulman of 432 Waukegan road, Kenilworth, announced the engagement of their daughter, Alice, to Lester M. Branch, son of John W. Branch of Evanston. Miss Shulman won a beauty prize at the University of Illinois in 1924.

Miss Robert Ashton Macready of Florham Park, N. J., and 570 Park avenue, New York City, announced the engagement of her daughter, Dorothy Louise, to Francis Van Wyck Mason, son of Mrs. Francis Van Wyck Mason, of the family of Winnetka, Ill., and the late Dr. Francis Payne Mason. Miss Macready is a graduate of Miss Mason's school, Tarrytown on the Hudson, and a member of the Junior League. Mr. Mason is a graduate of Harvard university, class of 1924, and a member of the Harvard clubs of New York and Boston. During the world war he served overseas with the Third Division. His grandfather, Francis H. Mason, was consul-general Paris and Berlin from 1896 until 1913. The wedding will take place in the autumn.

**Collarless Mode Demands Fur Piece**

by Corinne Lowe

**NEW YORK SOCIETY**

**Good Humored Gal's as Hard to Find as Is an Honest Man!**

BY DORIS BLAKE.

"Good humor," writes a canny bachelor, "is a woman's greatest virtue. I'm looking for a girl who is in league with the furriers. At all events, that is the way that our current mode is now resolving itself. Even the daintiest nature ones that have to date passed silver scarfs with clenched jaws and a glint of Puritan Father asceticism in their eyes are now succumbing. Let the plating wear off this in a month," they say to themselves, "I can't help it. I can't go out looking as if I had been caught in a fire."

Unfortunately for the average man, the furrier and perishable affair is still the correct finish. Yet, of course, one may compromise. One may substitute for it that more humble vulpine brother, the pointed fox or many of the foxes which are tinted in some tones of beige.

To go back to this collarless mode. One sees it frequently in the satin and flat crepe suits which are now so much in the picture. Theoretically, the furrier makes a gesture in the form of a scarf. Yet even the scarf doesn't quite relieve the severity of the neck line and you will see that our heroine today is all ready with her fur scarf.

This is a black satin model with one of the plain wrap around skirts now so much to the fore. It is finished with a broad hem and wide printed crepe and if you look at this companioning back view you will see that said blouse is sleeveless. Yes, indeed, they are doing that again this season. And, as one has said so often, they are doing black and white combinations ad infinitum.

The good humored disposition is world cultivating, whether you want or carry豪放 or not. It makes life ever so much smoother and happier all along the line and is the most promising matrimonial material. It involves a certain happy resiliency of temperament, a talent for adapting oneself easily to circumstances.

The most fundamental principles of living a happy life are to make the best of circumstances, to forget trifles and injuries, to forgive and forget them—the definition of good humor, by the way.

Words spoken in an ill disposed

moment may easily throw a young suitor into a panic of fear for the marriage of tomorrow. Then, too, when you analyze the petty grievances one flares up about, you will find it is only your conceit which wants to be pleased and revenged.

Girls do not like other girls who are given to biting remarks about their friends. Men like them less. There is always an uncomfortable feeling engendered by the wise cracking, sharp tongued one. The good humored girl, on the other hand, provides that mite of personal comfort which our own sex revels in so often than does the other.

**B**ECAUSE old hygienic ways are on the wane, women active in business and society have few hygienic worries these days. Hazardous old ways are being supplanted by a new way called Kotex.

✓ You discard Kotex just like a sheet of tissue. No laundry, no embarrassment.

Five times as absorbent as ordinary cotton pads, one now wears sheerest frocks and gowns without the slightest fear of embarrassment.

Also deodorizes thoroughly, thus ending all danger of offending.

Doctors and nurses widely urge Kotex. Women everywhere employ it.

You can obtain it at any store simply by saying "KOTEX." Box of 12 costs only a few cents. Be sure you get the genuine, for only Kotex is "like" Kotex.

CAMBRIDGE CREW  
BATTLE OXFORD**

oxbury of Yale Rows  
in Oxonian Boat.

LONDON, April 1.—(U.P.)—A brisk wind at nightfall was whipping the miles stretch of river Thames over which tomorrow the eight oared crews of Oxford and Cambridge will run their annual classic, while 500,000 spectators look on.

At the time, the sturdy Cambridge became a strong favorite in the race, although under such circumstances much will depend upon the tide of the cold which decides the positions.

**Middlesex Side Sheltered.**

The crew which wins the toss and rows the Middlesex side of the river in preference to the Sunny bank will be sheltered for the first half of the race by high banks and our smooth water than its opposite.

Any part of the British empire, which according to the advertisements in the sun never sets, sportsmen are waiting Saturday for the results of the Oxford-Cambridge race.

The winding river, with its high banks and an occasional bridge, provides a natural grand stand for both sides of the crowd of 500,000 spectators, standing upon the western bank.

**Cambridge Posterior Winner.**

Cambridge has won the last three in a row, but has annexed six of the twelve classics. Oxford's supremacy, therefore, is largely traditional, the dark blue still having the with 40 victories to 37 for the white.

John Krone of Yale and Queen's of Oxford, is No. 6 in the Oxonian's only American to take part in the race.

**Commission Bars Krone  
for Poor Matchmaking.**

President John Krone yesterday was suspended indefinitely by the Illinois State Commission for poor matchmaking in his wrestling show at Ashland Auditorium Thursday night. The commission also canceled license issued to Krone for April 18. Wade, who met Hana Steinkne in main event of Krone's show, was suspended for 90 days and fined one-third of his purse for his poor show.

**Its Fails to Reach**

**Tems on Reds' Contract.**

Cincinnati, O., April 1.—(AP)—Larry Critz, crack second baseman, is on his way to St. Louis to meet the Reds, today after failing in a conference with President August Herrmann, of the Cincinnati Reds, at the Palm Beach, Fla., to come to an agreement in his salary dispute.

**MILLER INDOOR TEAM WINS.**

The Miller A. C. indoor baseball team defeated the Richmond A. C. 4 to 0, last night at Stanford Park Gym. Schroeder pitched brilliant ball, striking out 18 men.

**Kieckhefer Trims Kenney,  
Thurnblad in Cue Games**

Augie Kieckhefer, world's three cushion billiard champion, who returned to Chicago Thursday after a successful billiard exhibition in the east, annexed two victories in the Interstate Three Cushion Billiard league yesterday. In the afternoon, Augie defeated Len Kenney, 59 to 28, in 29 innings at Kieckhefer's, and in the evening hit Kieckhefer's hand. Art Thurnblad, 39, took 56 in 56 innings at the Jackson Park Recreation room.

## Effortless Control— a new feeling of satisfaction

Possibly you don't do eighty often—but a car's performance at that speed tells you much about its motor, chassis, body and the craftsmanship with which they are assembled.

Hundreds of experienced motorists report that in the new Stearns-Knight, eighty seems like thirty in other cars of the same price. Could there by any more graphic testimonial to the manner in which Stearns engineering has eliminated steering-wheel kick, wheel shimmy—vibration of every sort?

We would like to give you this new motoring experience—this week . . . And remember, the motor is the same type as you find in Europe's most famous cars—the Knight sleeve-valve motor, which frees you forever from all the usual carbon and travel troubles—actually improving with every year of use.

The new Stearns-Knight is now available in 17 body styles—a complete line of six and eight cylinder models. Prices range from \$3250 to \$4650, at Cleveland.

## EXPORT DEMAND ADVANCES WHEAT AFTER EARLY DIP

BY CHARLES MICHAELS.

Private crop reports suggesting a winter wheat yield of 552,000,000 bu on the average, compared with an indication of 57,000,000 bu at this season last year and a harvest of 527,000,000 bu due to unusually favorable weather conditions from April to August, led to free selling of futures early, and a decline of 36¢ to 31¢, with May down to \$1.32.

The break brought in a large export demand, with sales finally placed at 1,500,000 bu in all positions, including 750,000 bu in cash, and a rally followed that carried prices of 35¢ to 36¢ from the low, with the finish unchanged to 36¢ higher, with September leading May closed at \$1.3467 to 35¢, July \$1.3547 to 35¢, and September \$1.3747 to 37¢.

Corn showed resistance to pressure, and while lower early rallied and closed 4¢ to 5¢ higher, with May 75¢60 to 75¢70, and September 80¢60. Oats were 4¢ to 5¢ lower, with May 43¢60 to 44¢, July 44¢60 to 44¢, and September 45¢60 to 46¢. Rye was independent and gained 1¢ to 1¢50c, with May \$1.0360 to 1.0370.

## Wheat Market Overhauled.

The report on winter wheat were constructed as broken, but there were again bids and by shorts absorbed the surplus in the pit, and when aggressive short covering started on the reports of a big export business the rally was easily attained.

A decided improvement was shown in the market demand for each wheat with sales of 1,800,000 bu finally estimated in all positions, including 300,000 bu Duluth springs; 300,000 bu or more red winter and 150,000 bu durum, the balance being Manitoba. France was reported as good buyers, and the continent took Manitoba. Rye sales were placed at 75,000 bu with a little business in oats.

Chicago handlers sold 7,000 bu wheat; 18,000 bu corn; 44,000 bu oats, and 6,000 bu barley to foreign buyers, and 20,000 bu corn were sold to go west.

Spot wheat business was steady to 3¢ spot No. 2 under 18¢12¢ under and No. 3 red 2¢40c under May. No. 2 hard was May price to 1¢40c over, and No. 3 red 1¢30c to 1¢40c over. St. Louis and Kansas City was unchanged.

Offerings of cash corn were not large, with some 10,000 bu to 12,000 bu spot, and spot was unchanged to No. 3 under No. 3 grades, 8¢40c under; No. 4 grades, 8¢70c under; No. 5, 9¢10c under; and No. 6, 9¢40c under May. Prices in outside markets were unchanged to the higher, with No. 2 white 3¢60c over and No. 3 white 1¢20c over the May. Official receipts of grain at St. Louis: 4,000 car.; 8 car.; 8 car.; 12 car.

Range of cash grain prices in leading markets follows:

**WHEAT.** Chicago, Kansas City, St. Louis. No. 1 red 1.32¢ to 1.33¢. No. 2 red 1.25¢ to 1.26¢. No. 3 red 1.29¢ to 1.30¢.

**CORN.** Chicago, St. Louis, Kansas City, Toledo. No. 5 red 6¢50¢ to 6¢55¢. No. 6 red 6¢55¢ to 6¢60¢. No. 7 red 6¢60¢ to 6¢65¢. No. 8 red 6¢65¢ to 6¢70¢.

**MINNESOTA.** Winona, Minneapolis. No. 1 corn 1.44¢ to 1.45¢. No. 2 corn 1.39¢ to 1.40¢. No. 3 corn 1.31¢ to 1.32¢. No. 4 corn 1.25¢ to 1.26¢.

**COTTON.** Chicago, St. Louis, Kansas City, Toledo. No. 1 red 6¢50¢ to 6¢55¢. No. 2 red 6¢55¢ to 6¢60¢. No. 3 red 6¢60¢ to 6¢65¢. No. 4 red 6¢65¢ to 6¢70¢.

**OATS.** Chicago, St. Louis, Kansas City, Toledo. No. 1 red 1.01¢ to 1.02¢. No. 2 red 1.02¢ to 1.03¢. No. 3 red 1.03¢ to 1.04¢. No. 4 red 1.04¢ to 1.05¢.

**RYE.** Chicago, St. Louis, Kansas City, Toledo. No. 1 red 1.03¢ to 1.04¢. No. 2 red 1.04¢ to 1.05¢. No. 3 red 1.05¢ to 1.06¢.

**SPINNERS TAKE MORE COTTON**

Spinners are taking more cotton than a year ago, their purchases for 1927 total \$18,577 bales against 24,265 last year.

The visible supply decreased 101,000 bales for 1927, while it increased 10,000 bales for 1926. Total supplies for 1927 were 4,334,000 bales compared with 4,334,000 bales last year.

Deliveries of cotton to spinning concerns during the month were 16,000 bales.

Moderate pressure from spinners carried prices up to 1 to 11 points on futures in Chicago, and 8 to 11 points in other markets.

Spinners in New England, New Jersey, and New Orleans dropped 1 to 11 points lower. Prices in leading markets follow:

After a strong to slightly higher opening in hogs yesterday, weakness developed, with closing prices weak 10c lower, a big share of the day's offerings clearing at the reduction. Fresh receipts at 13,000 were smallest for Friday since Oct. 1, but augmented by 18,000 caries over from Thursday's session, total offerings proved excessive. Largest shipping orders since Monday took 10,000 hogs.

General average price of hogs lowered to \$10.50, extreme top showing an equal loss to \$11.75, again a top of \$11.25 and average of \$11.25 the previous Friday. Large local packers operated comparatively slowly, obtaining moderate numbers at mid-week quotations. Several large drives averaging \$245 to \$260 lbs., averaged in price from \$10.65 to \$10.71. Most of the 7,000 in the pens at the close were held off the market.

A small run in 4,000 cattle met narrow outlet, the absence of well finished weighty carcasses buying to show less interest than is usual on closing sessions. Light and medium grades of steers are closing the week at 265 to 285c. Heavy heaves finished in a strong position, as high as any time of the year. Best cattle available averaged 1,000 lbs. and sold at \$12.25. Best cows closed steady with a week earlier with medium quality heifers at \$10.50.

Lambs sell steady. With hardly enough stock available to test prime salesmen succeeded in obtaining Thursday's prices for the meager lamb supply. Choice handy weight Colorados topped the list at \$15.50 to \$16.00, with shorn stock at \$14.50 to \$15.10. Shady weight lambs suitable for shearing and a short turn in the meat lot, went countryward at \$14.50 to \$15.75, good 76 lbs averages at the outside prices. Aged sheep held firm, medium weight ewes at \$10.50.

Receipts at Chicago for today are estimated at 100 cattle, 5,000 hogs and 5,000 sheep, against 47 cattle, 6,245 hogs, and 5,775 sheep, the previous Saturday and 27 cattle, 6,320 hogs and 2,750 sheep, a year ago.

## CAPITAL STOCK OF GREENBAUM'S TO BE INCREASED

Stockholders of Greenbaum Sons Bank and Trust company yesterday authorized an increase in the capitalization by \$1,000,000 to \$2,000,000. They also voted to change the name of the bank to The Bank of America, effective May 1. The name of the Greenbaum Sons Investment trust will remain unchanged.

The Union Trust company of Pitts-burgh declared a 50 per cent quarterly dividend, thereby placing the stock on 200 per cent annual basis, compared with 140 per cent previously.

Stockholders of the National Shawmut Bank of Boston have been called in a special meeting on May 2 to approve an increase in the capitalization by \$5,000,000 to \$15,000,000. The additional shares will be available for subscription by stockholders on the basis of one new share for each two now held at \$200 a share.

## WALL STREET NOTES

NEW YORK, April 1.—(P) Trading in the curb markets today showed another falling in volume, while prices were mixed. Oil stocks generally soft. Standard Oil of Ohio sold down 3 points to a new low, while Circle System, Carb, Solar Refining, and Humble sagged. Vacuum Oil, after dropping back nearly a point, advanced for a slight gain on the day.

Motors, which were inclined to heavier, although price changes were small, while Stutz and Durant were under pressure. New high prices for rear or lower were received by Bishop, first preferred, Investors' Company, North America, Massey Harris, Newman Mining, New Orleans and Great Northern, and Safeco.

A good demand also developed for the new Locomotive securities, stock, which advanced 2% points, and Freshman Radio, which closed more than 10 points higher. On the other hand, renewed weakness developed in East West A, which sank to a new low at 14%, and some of the baking and coal stocks.

American Light and Traction preferred crossed 11% to a new peak for the company. Power rights rallied 3 points and Empire Power, American Light and Traction, and Southern Power and Light preferred advanced a point or more.

With trading on a large scale for new stocks, prices in the bond market were irregular, however, a strong undercurrent. New high prices were maintained by several railroad issues. Heavy purchases of the Erie D to D resulted in an advance to a new high of 16%. Norfolk and Western continued its jump of 10 points to a new peak on the sale of one new issue. Pennsylvania Consolidated 4% Union Pacific first 4% and Great Northern also moved into new high territory.

Although Warner Sugar refunding 7% were offered in unusually heavy amounts, they were well supported and yielded only a fraction above from a point advanced in New York. Bond income, so quiet ruled the public utilities line.

The new City of Rome 6% were again in demand at more than a point premium over the old price. German General Electric and Rhine River Union 7%, with warrants, also gave a good account themselves. Federal government bonds were irregular, with selling of second Liberty 4% as the chief ac-
